

Enviromat™

CarpetGuard™

Floor Surface Protection

CarpetGuard™ and Enviromat™ are temporary adhesive films that have been designed for use in the controlled environment, environmental, construction, recreational vehicle, commercial and residential building, marine and retail markets. CarpetGuard™ and Enviromat™ can be used wherever there is a need to diminish an influx of dirt and dust in a clean area. These products can save the user, contractor and owner from significant cleaning and repair costs.

Floor Surface Protection

EM2436R30W	Enviromat 24"x36", White, 30 sheets/pad, 4 pads/ctn, 10 ctn per case
EM3636R30	Enviromat 36"x36", Clear, 30 sheets/pad, 4 pads/ctn, 10 ctn per case
EM3645R30B	Enviromat 36"x45", Blue, 30 sheets/pad, 4 pads/ctn, 10 ctn per case

Enviromat™ contamination control products are multi-layered pads that remove particulate contaminants from foot traffic prior to entry into a clean or controlled environment. Each numbered layer is coated with an adhesive which causes the contaminants to adhere to the pad, removing them from the sole of the footwear. Once the top layer is thoroughly soiled, it can be easily removed, exposing the next layer which will allow the mat to return to its normal maximum efficiency.

CarpetGuard™

Part #	Description
EMCG324200	Clear Carpet Guard 24"x200" 1 Roll
EMCG324500	Clear Carpet Guard 24"x500" 1 Roll
