| Motor Rating: | 1/4hp | Height: | 8.6" |
| Power: | 115 Volts, 60 Hz | Width: | 17.5" |
| Current: | 2 amp draw | Depth: | 19.5" |
| Airflow: | 900 CFM | Cord Length: | 15' |
| Control: | On/Off rocker switch | Sound Level: | 68 dB (avg.) |
| Weight: | 16.5 lbs | Certifications: | ETL tested to UL and CSA standards |

The Crosswind LP™ low profile air mover is a low noise ETL listed 1/4hp 1-speed performer with an airflow rating of 900 CFM drawing only 2 amps of power. Available in blue or red, the housing is washable, durable, chemical-resistant, and stackable.

Crosswind LP™ Features:

- Lightweight and compact: easy to transport and handle
- Stackable: can stack 5 high for storage and transportation
- High-velocity performance: 900 CFM of focused airflow
- 2-amp power draw: won't over-tax electric circuits
- Multi-position design: direct the airflow where you need it most
- Daisy-Chainable: electrical outlet in housing lets you connect multiple air movers together
- Available in blue or red
