RoHS CERTIFICATE of COMPLIANCE

This is to certify that tools manufactured by Channellock, Inc. are in compliance with EU Directive 2011/65/EU, (RoHS), maximum concentration values (MCV's) per Annex II.

Specifically, Channellock tools meet the MCV's per the EU Directive of these restricted substances; cadmium, lead, total chromium, hexavalent chromium, mercury and bromine as specified by the EU Commission in Annex II to the RoHS Directive.

RoHS tests were performed by Nadcap certified, IMR Test Labs, Lansing, NY. (Reference IMR report number 201409829 Revision 1, dated August 15, 2014.)
